Jim is a self-taught artist who finds beauty in the vehicles and other relics from our past. Working with vibrant acrylic colors he brings his subjects to life no matter how battered and neglected they are.

Jim and his wife, Rose, grew up in the Mid-West and moved to the Roswell/Alpharetta area in 1981 where they became Realtors. They still work in the Residential and Commercial Real Estate business ably assisted by their two grown children.

With a lifelong interest in Art, Jim began painting beautiful furniture and then focused on paintings of vehicles from the past
